

CDL

Concealed Door Loop

Specifications

This patented Concealed Door Loop (CDL) is a low cost method of transferring low voltage power from the door frame to the locking device. Where as typical door loops are surface mounted and remain constantly visible, the CDL slides into the door and/or frame completely concealing itself when the door is closed.

- Features :** Durable Aluminum or Black Anodized Finish
Easy installation & Variable mounting locations
Special 1/4" flexible conduit
Supports up to 180 degree door swing

Warranty : Full 1 Year Warranty
